STOCK PRICES CRUMBLE UNDER CONTINUED SELLING.

WEAKNESS NOT ACUTE EX- COMPANY CEPT IN SPECIALTIES.

Several Bear Factors Are Removed Without Appreciably Helping the Market.

New York, July 30 .- Yesterday's check to the recovery in prices was supplemented to-day by reaction. There was no acute weakness, except for the eccentric plunges amongst the inactive specialties, but the emand diminished to normal proportions. Commission houses which reported yesterday an awakening inquiry for stocks found to-day that the slight reaction in prices had almost entirely discouraged this in some cases had almost entirely discourouvers to get out of the market again hurriedly. A constant drip of small selling undermined the market and caused prices to crumble. The early selling centered on Atchison, following up the late movement of yesterday. The general list resisted for a time until some of the specialties began to make violent declines. The weakness then became quite general. Several of the then became quite general. Several of the professed reasons for yesterday's selling of Atchison were cleared up to-day without trengthening the stock in the market. Official denials were made of rumors of a coming bond issue and of an alleged unsuccessful attempt to negotiate a temporary loan by the company. The reports of rain in the Southwest with expected benefit to the corn crop disposed of another ground of weakness.

The selling was partly by professional bears, but the suspicion remained that long stock was coming up on the market and made an unfavorable impression upon

made an unfavorable impression upon speculative sentiment in the whole market. An unfavorable showing of June net earnings by reason of flood damage and a bear raid to dislodge a pool's holdings of the stock were hinted at. A feature of the stock were hinted at the stock were hinted at the highly improbable, of new combinations and absorptions of railroad systems.

The purchase of the Evansville and Terre Haute evidently gave a new lease of life to this class of reports. They concerned themselves with railroads of all grades, from those of a few tens of thousands of shares to the New York Central and Pennsylvania. The policy of combination of available railroad systems doubtless has favor in the railroad world, and the liquidation which has been forced in some shares has offered attractive opportunities for absorption in strong contrast to the extravagant valuations at which the mergers of the boom period were consummated.

COTTON EXCITEMENT.

Bome resumption of the speculative ex-

the boom period were consummated.

COTTON EXCITEMENT.

Some resumption of the speculative excitement in cotton was against the stock market, and the large speculation developing in the grain markets is looked upon

DEAL ROSIN

with a degree of apprehension, owing to the general financial situation. Corn showed strength to-day in spite of the favorable crop news, and there was some fear that the spring wheat crop was suffering further deterioration. The money market showed a growing case for time loans. But the movement of prices of specialties on the Stock Exchange indicated that there was some selling out of collateral in loans. Stocks recovered a large part of their declines late in the day, when the liquidation in Atchison had spent its force, and the closing was apathetic and not far from last night's level.

In the bond market Chicago Terminal Transfer 4s were offered down 6½ just before the close. Toledo, St. Louis and Western 4s feil 4.

The bond market was quite broad, and showed a good liquity, although some of

cm 4s fell 4.

The bond market was quite broad, and showed a good inquiry, although some of the inactive investment issues were marketable at considerable concessions from last prices. Total sales par value, \$2,410,000. United States \$\frac{3}{5}\$ declined 1 and the old \$4\$ lb2 per cent on the last call.

United States Realty—Both United States Real-ty common and preferred were weak and lower to-day, the latter making a new low record. It was said the selling was for account of a mem-ber of the underwriting syndicate, whose loans, according to the goestp of the board room, were being closely scrutinized by the banks. F. T. Adams & Co. were large buyers of both classes of stock.

of stock.

Rock Island—The decline in Rock Island seamed to be due chiefly to selling by professionals. The movement was accompanied by revived rumors of a bianket mortage and later it was said that an issue of \$250,000,000 of unifying and refunding 4-per-cent bonds would be make by the Chicago, Rock Island and Pacific Railway Company.

Rock Island and Facilic Rasiway Company and Rumors—One of the rumors heard to-day was that Russell Sage had sold stocks to liquidate a certain loan. Another concerned the alleged trouble of a prominent house which was said to have suffered seriously from the collapse of Lake Susuffered seriously for the collapse of Lake Susuffered

TRACTIONS STILL LEADERS OF LOCAL STOCK MARKET.

TRANSIT AND PREFERRED SHARPLY HIGHER.

With Buying Mainly by Strong Interests.

Activity in the traction issues was again the feature of the market for local securities. St. Louis Transit had excellent support at \$29 and \$20.12% and more was wanted at the close at \$20,25. United Railways, preferred, was even better demand on the upturn from \$67.50 to \$68, the net gain for the day being \$1.25 a share. The 4 per cent bonds were a trifle easier at \$79.8742. Other issues were dull and about steady. Lincoln Trust was taken at \$247 and Commerce was in better demand at \$322 and \$222.50. Missouri-Edison 5s at \$97 and National Candy 1st pfd. at \$95 were the only active issues in the miscellaneous group. Central Coal and Coke, common, was wanted at \$2.35 and held at \$52.50.

TRADING IN GRAIN ACTIVE AND THE CLOSE IS STRONG.

GOOD DEMAND FOR WHEAT MOST OF THE DAY.

General Tone of Market Is Bullish | Further Rains in the West Induce Easier Tone in Corn, but Price Holds Up.

> Chicago, July 20 .- Trading in the grain pits was again active to-day, and wheat was strong the greater part of the day. Sept. closing %@%c higher. Sept. corn closed unchanged, cats were up 15074c, while provisions were from 5c higher to 19c lower. WHEAT.

There was a good general demand for wheat at the opening, due to the advances In the foreign markets, and the initial sales were at higher prices. Sept. being %645c higher at 795c to 795c. The higher prices brought out heavy realizing sales, and the market turned weak early in the day, Sept. declining to 785c. Reports of frosts in the Northwest and good buying by large commission houses brought a raily later in the session, the market becoming strong, Sept. advancing to 805c. Liquidation by local longs late in the day, together with the easier tone in corn, caused another setback, but the close was firm, with Sept. \$465c higher at 7946794c. Clearances of wheat and flour were equal to 184,509 bu. Primary receipts were \$21,400 bu. against 1,48,209 bu. a year ago. Minneapolis and Duluth reported receipts of \$2 cars—19 of contract grademade total receipts for the three points of 191 cars, against 213 cars last week, and 501 a year ago.

CORN. were at higher prices, Sept. being %6146

CORN. Further rainfalls in the West, including the greater portion of Kansas, caused an easier tone in corn, and there was considerable selling throughout the entire day, but the strength in wheat had a rallying effect, and at times the market showed some firmness. Shorts were good buyers on the declines, and there was also fair buying by commission houses. The close was steady, with Sept. unchanged at 52½c, after selling between 52½c and 53½c. Local r wipts were 140 cars, with 18 of contract grade. OATS.

Oats ruled quiet, with prices firm in sympathy with the sirength in wheat. Com-mission houses were early sellers, but the demand was sufficient to hold prices. The close was firm, with Sept. 344c higher at

LIVE-STOCK MARKET. Native Supply Small-Beef Cattle

Native Supply Small—Beef Cattle

Steady—Hogs Close Lower.

NATIVE CATTLE—Beef Steers—The native department was lightly supplied, the day's total being slightly over 80 head, which was but little different from last Thursday's total. Four days' receipts are liberal, totaling 9,200 head, examet 6,000 last week, 7,700 the same time a month ago and 4,700 a year ago.

There were about haif a dozen loads of beef steers included in the supply, the bulk of the arrivals being hutcher and stock cattle urbe small lot of beef steers offered wern here kinds among the supply. Trade was quietly conducted and generally ruled about like Wednesday. However, some unevanness was reported and a sale of good cattle was quietle conducted and generally ruled about like Wednesday. However, some unevanness was reported and a sale of good cattle was quietle on an easier basis.

SOUTHERN CATTLE—The supply of quarancattle was moderately large, totaling 150 cars and 4.151 lead were recorded, and two weeks ago 61 cars and 1.712 head.

The bulk of the arrivals were steers, which

After opening strong and steadily advancing, the local grain markets succumbed to liquidation in the last hour and closed easy. The net losses were slight and there was still a great deal of bullish sentiment, both in wheat and corn, at the close, but lack of speculation checked the upward movement and some of the longs were anxious to case their lines on the chance of getting in at lower prices. Nearly all of the early wheat news was buillish. Receipts here and at other primary points were again light, and for-eign markets were stronger than they had been for several days. Reports from the Northwest showed that there had been frost in some sections and that similar conditions were feared in others. There was brisk buying at the opening and values were well maintained until the last hour, though it was noted that only a small proportion of the demand came from outsiders. In the face of the light demand considerable grain was thrown on the market in the last hour.

Aside from a slight rally in line with wheat, corn showed no signs of strength. Weather conditions were generally favorable and receipts were comparatively large. Selfing in the last hour wiped out the previous gains,

Sept. wheat opened 1-16c up and closed 1/6/4c off.

Sept. corn opened %c off and closed %c off.

Sept, oats closed %c off. Receipts of produce were moderate and prices of fruits and vegetables were generally

Yesterday's bank clearings were \$7,545,862, balances \$997,418. Discount rates were

stendy between 5 and 6 per cent. Spot cotton was unchanged in the local market.

FUTURES CLOSE EASIER AFTER EARLY ADVANCES.

CORN NEWS IS GENERALLY BEARISH.

Liquidation by Longs Causes Sharp Recession in Values in the Last Hour.

Light outside speculation and lack of professional support caused a recession in the last hour after grain values had shown a decided upward tendency on the basis of legitimate news. The late selling had some of the earmarks of manipulation for the urpose of getting in at lower prices. All of the information at opening was unmis-takably bullish. Receipts were moderate, frosts in the Northwest were reported and foreign markets were stronger than they had been for some time. Longs were the best sellers at the close. September wheat opened 1-16c up and sold
